If the tuner is powered on an image will appear on the confidence monitor if there is no image, Press the power button on the touch screen.

**Trouble shooting**

**Can't change select lamp or change settings on document camera...**

Look at the power button on the document camera if there blue light is blinking press the power button once. The light should stop blinking and you will have control of the cameras features.

**There is no place to plug in my thumb drive...**

If you are in Stayer rooms 104 or, 200 or 204; insert the thumb drive into the USB slot next to the PC power button

Otherwise insert your thumb drive into the USB ports on the left side of the confidence monitor

**When I press a source button on the touch screen panel nothing happens...**

The touch panel will go to sleep periodically, when a button is pressed the panel wakes Press the same button again to select your source.

**When I select a source the computer screen changes too...**

The confidence monitor on the podium will always display the user selected source.

**How can I make the Confidence monitor display only the pc?**

This feature is not available.
