Quick-Start

Start-up Process

Step 1: START-UP SYSTEM
Press the ON button located underneath the "Main Display". The projector will then begin to power-up.

STEP 2: PICK YOUR SOURCE
Decide which source you want to be displayed on the large display.

Sources Explained: PC
1: Select Rack PC as the source.
2: Power on the built in computer by pressing the PC Power button.

Sources Explained: Laptop
1: Select FB Laptop as the source
2: Connect the VGA cable to your laptop
3: Connect the audio cable to your laptop

Sources Explained: DOC CAM
1: Select FB Doc Cam as your source
2: Make sure to power on the document camera and verify that the lens cap has been released. Give the device time to start-up.

Please call the Helpdesk at 717-871-7280 to request assistance.
