    • Do: follow the guidelines
    • Do: Include the Millersville wordmark on anything you promote.
    • Don’t: alter the logo
    • Don’t: create a new logo
    • Don’t: use a pirate
Who is Millersville? Marketing

Brand Differentiating Points

WHAT WE WANT
Changing individuals, families, communities and the world.

HOW WE GET TO WHAT WE WANT
Millersville's high placement rating

WHAT WE DO.
We forge strong, intelligent and relentless thinkers and creators – individuals poised for brilliance.

STUDENT/PROFESSOR RELATIONSHIPS:
The men and women of the Millersville University faculty are scholars, highly respected in their fields, dedicated to the success of their students in the classroom, the research lab, in campus life and beyond. The bond developed between the faculty and students is powerful and many of Millersville's successful alumni rate their professors as the main reason for success in their industries. The caring and competent staff share in the belief that Millersville is changing the world, one student at a time and that every student will be prepared to lead a robust intellectual, professional and civic life. Our faculty has developed the reputation that they truly "give a damn" about their students. Finally, from your first class to your last, your professor, not a student aid, will be there to instruct you. A student-centered campus and Made in Millersville are results of this bond.

PROGRAMS OF DISTINCTION:
Millersville University has over 100+ programs available for students to explore and find their path. Many of these programs are unique programs of distinction and were started, or taken to the next level, at the university. A select few of these programs mix several disciplines together – taking science, technology and art and creating a more progressive, dual degree. Many of the faculty leading these programs, are carving new, highly desirable paths in their industries. All of Millersville’s superior academic programs fully prepare students for real world careers.

BEAUTIFUL CAMPUS & GREAT LOCATION:
Millersville University is a beautiful school with an outstanding location. Millersville prides itself on the unique mix of historical and modern facilities, all surrounded by an organically maintained landscaped environment. Millersville’s campus is picturesque and one the safest colleges in the country, the perfect backdrop for exploring and researching. The location is minutes from downtown Lancaster city – a thriving, growing and creative hub in the northeast. Major metropolitan areas, such as Philadelphia, Baltimore, Washington D.C. and New York City are just a train ride away. The Millersville campus is the right size, in and outside the classroom. The campus is immersive enough for students to gain a world-class learning experience, yet still has the academic advantages of a more intimate-sized school.

OUTSTANDING ROI:
Millersville alumni are quoted as saying that Millersville was one of the “smartest” choices they ever made. One reason is the mix of high-level academics and the lower cost of a state school system. Millersville also has some of the most highly sought after internships (Apple, NFL Films, NASA, IBM, etc.). Creativity is interwoven throughout the campus and Millersville’s forging students that go on to impact and change the world. All of these opportunities are created to build one of the highest job placement rates in higher education. Opportunities that lead to job placement are why Millersville University’s alumni have some of the highest buyer’s satisfaction rankings among higher educational institutions.

HOW WE DO IT:
Basic elements that students want/need. We are very good at these.

FOUNDATION: Core elements that we do really well, that are desired by students.
