Academic Building Wireless Update

- Completed: Osburn, Caputo, McComsey
- Installation in Progress : Roddy, Stayer,
- Design Complete: Breidenstine, Hash/Bassler, Grossman, Pucillo, Luik

National Cyber Security Month

We hope you enjoyed our daily tips during October on how to keep our campus data more secure. We covered topics such as keeping a clean machine from malware, online etiquette, and password strength. If you missed any of the daily tips, they are archived in the Ville Daily Archives. We would like to thank the Millersville Cyber Defense Organization for their support of the month long campaign. Close to 100 people took part in the voluntary Cyber Security Awareness online courses. If you didn’t get a chance to take the courses there is still time as the window has been extended till the end of the calendar year. If you need a reminder invite or didn’t get a chance to take part the initial round please contact the Help Desk. If you ever have any questions regarding IT security information please contact campusitsecurity@millersville.edu.

Project Update

College Scheduler

This application provides students the ability to create their own schedules to assist them in registering for classes. We are currently in the testing phase, but plan on having this service available by November 30, 2017.

Test Scoring

The new test scoring system is currently up and running and being tested by a few of our faculty members. This system works well with our Ricoh copier fleet to print test sheets, scan them and grade them. Stayed tuned here for more information and when we expect to go campus-wide with this new solution.

Help Desk
