Turnitin GradeMark
Using Turnitin GradeMark independently of D2L

GradeMark may also be used within D2L. There it integrates with the dropbox tool. For information on using Turnitin GradeMark inside of D2L, please see the dropbox help in the D2L Resources wiki.

Using GradeMark outside of D2L requires more time and effort on the part of the instructor at the outset, but also provides earlier access to new GradeMark features and the ability to reuse rubrics between assignments and courses. To begin using GradeMark outside of D2L, you will need to:

- create an account for yourself on Turnitin's website
- create one or more classes there
- create one or more assignments with your class or classes
- enroll your students in your class or classes.

Creating an instructor account

Turnitin provides a guide to creating an instructor account.

In order to complete the account creation process, you will need two secret pieces of information:

- Millersville's account ID
- Millersville's join password

If you need to know the account ID and join password and you are a Millersville faculty member, please log in to the wiki using the link at the top of this page or contact the Help Desk.

Creating a class

Turnitin provides a guide to creating a new class.

Enrolling students

Turnitin provides a guide to enrolling students.

Creating an assignment

Turnitin provides a guide to creating a new assignment.

Helping students get started with GradeMark
Turnitin provides student guides you can share with your classes.

Getting additional help

- Explore additional instructor guides at Turnitin.com.
- Contact the Help Desk.
