Student Telephone Overview

In-room phone service is not provided in student dorms. There is one Emergency/Hall phone available on each floor of each dorm for emergency or local calling needs. In order to place long distance or directory assistance calls, students will need to obtain a calling card from the telephone company of choice. Outside Emergency phones are also located throughout campus.

In case of a special need for an in-room telephone, a request may be made through the Housing Office

---

Millersville is in the process of upgrading our phone system to a VOIP solution. Please refer to our VOIP project page for further information and additional documentation.
