Username and password for students, faculty, or staff members from other PASSHE schools

What is my D2L username and password? How do I change or reset my password?

If Your Primary Institution Is Kutztown University

Username and Password

Your username is your full, Kutztown University email address, the same as that which you use to log in to Kutztown servers and services.

Example:

jstod123@live.kutztown.edu would have the username jstod123@live.kutztown.edu.

Changing or Resetting Your Password

Please use Student Account Management to change or reset your password.

Logging In

On the D2L login page, use the "InCommon Login" button.

If Your Primary Institution Is Shippensburg University

Username and Password

Your username will be provided to you by your course instructor or by an email message automatically sent to you by Millersville’s D2L system. In most cases, your username will be the portion of your Shippensburg University email address before the "@" sign; however, there are exceptions.

Example:

js1234@ship.edu may have the username js1234.

Before you can access your D2L account for the first time, you will need to set your own password using the link below.

Changing or Resetting Your Password

Please use D2L’s “Forgot Your Password?” feature to change or reset your password.

Logging In

On the D2L login page, follow the "Guest Login" link.

For more information on logging in to D2L, please see: Logging in
