Livescribe Echo Smartpen - Recording

While recording, the pen will record both what is written and any sound made during the recording

- What is written and the audio can be exported together, or individually

**Pausing a session:** The “pause” button will stop a session, but it can be resumed at any point by tapping the “record” button again, the session will not be saved at this point

**Stopping a session:** The “stop” button will stop a session, the session cannot be resumed, stopping a session saves the recording

1. To begin recording, tap the “record” button with the tip of the pen, as shown below.

2. The OLED screen on the pen will now display a timer of how long you have been recording.

3. To end a recording session, tap on the “stop” button, as shown below.
The session has been recorded. The next time the smartpen is connected to a computer the session will automatically be uploaded.
