Marauder Wireless on IPhone/IPad

Connecting Using Apple/IPad

1. Find the settings icon your device and click to open.

2. From the menu, choose Wi-Fi

   ![Settings Screen]

   - Airplane Mode
   - Wi-Fi: Not Connected
   - Bluetooth: On
   - Cellular
   - Personal Hotspot: Off
   - Notifications

3. Choose the Marauder network
4. Enter your domain username and password and click "Join"
   1. These are the same credentials you log into domain computers, email, etc

5. Ensure you click on "Trust".
1. By choosing Trust, you are downloading a certificate which will ensure your device and the network establish an encrypted connection.
