As an On Campus PC user you have all OnBase applications available to you. Accessing OnBase via Unity is the recommended method as it allows you to incorporate your Outlook’s functionality as well as be used as a resource when you are using Banner INB.

The following applications are available to you while on campus:

- OnBase Unity (Windows machines only)
- OnBase Web Client (Internet Explorer Only)
- OnBase Client (Batch Scanning/Indexing)
- OnBase for iPad

Note: Mac users are unable to use Unity and the Scanning Client at this time.
