Launching MU Video Capture

How do I run the MU Video Capture Desktop Recorder?

After you install Capture, you can launch the Capture Desktop Recorder either from within D2L or from MU Video itself.

**Launching Capture from within D2L**

These instructions assume you have already logged in to D2L.

1. In the navigation bar, click or tap: Resource.
2. In the menu that opens, click or tap: My Media.
3. In the My Media window that opens, click or tap the Add New button.
4. In the menu that opens, click or tap: Capture.

**Launching Capture from MU Video**

1. Go to MU Video: https://millersville.mediaspace.kaltura.com/
2. In the upper right corner of the page, click or tap: GUEST.
3. In the menu that opens, click or tap: Login.
4. Log in using the same Millersville username and password you use for your Millersville email.
5. Click or tap: + ADD NEW.
6. In the menu that opens, click or tap: Capture.
