Launching MU Video Capture

How do I run the MU Video Capture Desktop Recorder?

After you install Capture, you can launch the Capture Desktop Recorder either from within D2L or from MU Video itself.

Launching Capture from within D2L

1. In the navigation bar, click or tap: Resource.
2. In the menu that opens, click or tap: My Media.
3. In the My Media window that opens, click or tap the Add New button.
4. In the menu that opens, click or tap: Capture.

These instructions assume you have already logged in to D2L.

Launching Capture from MU Video

1. Go to MU Video: https://millersville.mediaspace.kaltura.com/
2. In the upper right corner of the page, click or tap: GUEST.
3. In the menu that opens, click or tap: Login.
4. Log in using the same Millersville username and password you use for your Millersville email.
5. Click or tap: + ADD NEW.
6. In the menu that opens, click or tap: Capture.
