1. Find the settings icon on your device and click to open.

2. From the menu, choose Wi-Fi

3. Choose the **Marauder** network
4. Enter your domain username and password and click “Join”.
   a. These are the same credentials you log into domain computers, email, etc.

5. Ensure you click on “Trust”.
   a. By choosing Trust, you are downloading a certificate which will ensure your device and the network establish an encrypted connection.
6. Your connection is now complete and secure via certificate.
