Marauder Wireless on iPhone/IPad

Connecting Using Apple/IPad

1. Find the settings icon your device and click to open.

2. From the menu, choose Wi-Fi

![Settings Menu]

3. Choose the **Marauder** network
4. Enter your domain username and password and click "Join". These are the same credentials you log into domain computers, email, etc.

Username: jdoe
Password: *********

5. Ensure you click on "Trust". By choosing Trust, you are downloading a certificate which will ensure your device and the network establish an encrypted connection.
Your connection is now complete and secure via certificate.
