Marauder Wireless on IPhone/IPad

Connecting Using Apple/IPad

1. Find the settings icon on your device and click to open.

2. From the menu, choose Wi-Fi

3. Choose the **Marauder** network
4. Enter your domain username and password and click "Join". These are the same credentials you log into domain computers, email, etc.

   Enter the password for "Marauder"

   Username: jdoe

   Password: **********

5. Ensure you click on "Trust".
   By choosing Trust, you are downloading a certificate which will ensure your device and the network establish an encrypted connection.
6. Your connection is now complete and secure via certificate.
