---

For information on using mobile web browsers with D2L, please see [Mobile devices](#).

While other web browsers may work, those listed above are the only ones that have been certified as working with D2L. If you experience difficulties using D2L while using a browser not listed above, please switch to a supported browser.

**Millersville University strongly recommend that you use a supported browser for critical class activities such as quizzes.** Depending upon the design of a particular quiz, you may not be permitted to re-enter or retry the quiz should you discover problems with your non-supported browser after beginning your attempt.
