Adding a reading list link as a content topic

How do I add a link to a reading list as a content topic?

These instructions assume you have already logged in to D2L and entered the course in which you wish to work.

1. Click on "Resource" in the navigation bar.
2. Select "Content" from the menu that opens.
3. Locate and open the module in which you wish to add a reading list as a topic.
4. Click the "Add Existing Activities" button.
5. Select "External Learning Tools" from the menu that opens.
6. Select "Reading List" from the list of available external learning tools.
