Supported mobile devices for MU Video

Can I use a smartphone, tablet, or other mobile device?

Yes, MU Video does support access via mobile devices such as smartphones and tablets. Most mobile devices will play media that has already been stored in MU Video, and some devices can add new media to, or even create new media in, MU Video.

Please see the tables below for more information on common mobile device types and the capabilities of those devices.

Mobile devices not listed below may work with MU Video, but only those listed below have been tested and certified for use with MU Video.
