### Possible Issue with Microsoft Edge

Millersville’s D2L support staff are investigating a possible issue with Microsoft Edge and D2L quizzes. As a precaution we currently recommend using a supported web browser other than Edge for taking quizzes.

For information on using mobile web browsers with D2L, please see Mobile devices. While other web browsers may work, those listed above are the only ones that have been certified as working with D2L. If you experience difficulties using D2L while using a browser not listed above, please switch to a supported browser.

Millersville University strongly recommend that you use a supported browser for critical class activities such as quizzes. Depending upon the design of a particular quiz, you may not be permitted to re-enter or retry the quiz should you discover problems with your non-supported browser after beginning your attempt.
