Description: Zoom is a system available to Millersville University students, faculty, and staff for hosting and participating in online meetings, presentations, and conferences related to coursework and University interests. Zoom is not intended for personal use outside course and University interests.

Service availability: All Millersville University students, faculty, and staff have accounts within the system. Accounts are activated the first time a user logs in to Zoom to manage meetings or enter his or her personal meeting room. Depending upon settings, some Zoom meetings may be shared with people outside the University community.

Zoom resides at https://millersville.zoom.us/ and is accessible from any device with Internet access.

Training and support: Faculty and staff can request one-on-one training or assistance from a member of the Instructional & Technology Support team via Help.Desk@millersville.edu or (717) 871-7777.

Students can visit the Digital Learning Studio in McNairy Library for help using Zoom for course assignments.

Additional resources:
- Allowing all participants to screen share
- Allowing others to download a cloud recording
- Disabling HD video in Zoom
- Enabling HD video in Zoom
- Entering your personal Zoom meeting room
