Accounts and Network Access

Overview
We offer general Millersville login accounts and network access (both wired and wireless) to the entire University community.

Requirements
- Available to: Students, Faculty, Researchers, Staff, Departments, New/Incoming Students, Guests
- **Students** -- Students living in the residences must have paid the Technology Fee before connecting to the network in one of the residences.

Key Features
- A single Millersville login name and password provide access to most major computing services.
- Network access is widely available throughout campus.
- You can work remotely through secure connections that provide access to the same resources you enjoy on campus.
