Marauder Wireless on IPhone/IPad

Connecting Using Apple/IPad

1. Find the settings icon on your device and click to open.

2. From the menu, choose Wi-Fi

3. Choose the Marauder network
4. Enter your domain username and password and click "Join". These are the same credentials you log into domain computers, email, etc.

Username: jdoe
Password: ********

5. Ensure you click on "Trust". By choosing Trust, you are downloading a certificate which will ensure your device and the network establish an encrypted connection.
6. Your connection is now complete and secure via certificate.
