Adding a reading list link within a content topic

How do I add a link to a reading list within a content topic?

These instructions assume you have already logged in to D2L and entered the course in which you wish to work.

1. Click on “Resource” in the navigation bar.
2. Select "Content" from the menu that opens.
3. Locate the topic in which you wish to add the reading list link.
4. Open the topic.
5. Click the down arrow to the right of the topic’s title.
6. Select “Edit HTML” from the menu that opens.
7. In the HTML editor, click the Insert QuickLink button.
8. In the Insert QuickLink window that appears, click External Learning Tools.
9. In the list of available external learning tools, click Reading List.
