Logging in to the Zoom Client

How do I log in to Zoom's desktop application, the Zoom Client?

1. If the Zoom Client asks you how you want to log in, choose "SSO: Login with SSO".

![SSO Login Screen]

2. For the domain type: millersville

![Domain Selection Screen]

3. For your username and password, type your standard Millersville username and password, the same as you use for your Millersville email, etc.

![MyVille Account Login]

4. You will now be logged into your zoom client. (you will see your initials top right corner. (as seen below)
5. Now copy the link from your source (ex. from calendar, D2L course, or email)

6. Select the join icon (as seen above) and paste the link into the join dialog box that appears; it will recognize the meeting ID.

7. Now select open the zoom application, select join with computer audio and video. Now you are signed in as an authenticated user.

Below is a video tutorial of the steps above.
