Accommodating Students without the Multi-Modal technologies.

Best practices for faculty that are unable to present from a Multi-Modal Room

Check to see if room has a Planar touch screen monitor with built in web camera and microphone as seen below:

If your room does have this feature, please open your zoom app on the podium computer, sign in, and set up your zoom settings as you would at home but use the built in camera and mic as your zoom sources.

1. Select the tiny up arrow next to the microphone bottom left corner when you move your mouse.
2. Select Test speaker and sound from the list (Note please select the different sources until you hear your voice the audio come through your classroom speakers, you will also see the microphone turn green when you talk)

Example sources for some rooms will be:

Microphone
- microphone

Speakers
- HDMI (Extron ScalerD)

3. Select the tiny up arrow next to the camera bottom left corner when you move your mouse.

Cameras
- camera

Bring your own Device (BYOD) connect it using your HDMI dongle, then select this source on the Extron panel.
Select the HDMI source above

HDMI chord to connect to your laptop

image of the adapter to connect your HDMI to your USB C

Now open your zoom app on the laptop computer sign and set up your zoom settings.

1. Select the tiny up arrow next to the microphone bottom left corner when you move your mouse.
2. Select Test speaker and sound from the list (Note please select the different sources until you hear your voice the audio come through your classroom speakers, you will also see the microphone turn green when you talk)

Example sources for some rooms will be:
Microphone
  - Laptop mic

Speakers
  - HDMI (Extron ScalerD)

3. Select the tiny up arrow next to the camera bottom left corner when you move your mouse.

Cameras
  - Laptop camera

⚠️ Please note these are workarounds and that some of the audio and video quality will not be as good as the Multi-Modal room experience.
