Viewing quiz results

How do I view the results of a quiz attempt?

Note: individual instructors may allow for different information to be shared on quiz submission views. Student's may not see the same question, answer or feedback details on all quizzes. Student's should verify with a course instructor what information they should be seeing for quizzes in a particular course.

These instructions assume you have already logged in to D2L and entered the course in which you wish to work.

2. Select "Quizzes" from the menu that opens.
