Allowing 3rd Party Cookies

How do I allow 3rd party cookies in my web browser?

Please follow the steps below for the web browser you are using.

- Apple Safari
- Apple Safari (iPhone/iPad)
- Google Chrome
- Google Chrome (Android)
- Microsoft Edge
- Mozilla Firefox

Apple Safari

1. In menu bar, click Safari.
2. In the menu that opens, click Preferences...
3. At the top of the preferences window that opens, click Privacy.
4. Uncheck the box for Prevent cross-site tracking.
5. If a pop-up asks "Are you sure you want to block all cookies?", click the Cancel button.
6. Close the preferences window.

Apple Safari (iPhone/iPad)

1. Open the Settings app.
2. Tap Safari.
3. If Block All Cookies is on, turn it off.
4. Turn off Prevent Cross-Site Tracking.
5. Return to the Safari app.

Google Chrome

1. In the upper right corner of the Chrome window, click (Customize and control Google Chrome).
2. In the menu that opens, click Settings.
3. In the left column, click Privacy and security.
4. Click Cookies and other site data.
5. Select Allow all cookies.
6. Close the Settings tab.

Google Chrome (Android)

1. In the upper right corner of the Chrome app, tap .
2. In the menu that opens, tap Settings.
3. Tap Site settings.
4. Tap Cookies.
5. Select Allow cookies.
6. Back out of Chrome settings by tapping three times.

Microsoft Edge

1. In the upper right corner of the Edge window, click (Settings and more).
2. In the menu that opens, click Settings.
3. In the left column, click Cookies and site permissions.
4. Click Manage and delete cookies and site data.
5. Turn off Block third-party cookies. The switch should be to the left:
6. Close the Settings tab.

Mozilla Firefox

1. In the upper right corner of the Firefox window, click (Open Application Menu).
2. In the menu that opens, click Settings.
3. In the left column, click Privacy & Security.
4. Select Custom.
5. Uncheck the box for Cookies.
6. Click the Reload All Tabs button.
7. Close the Settings tab.
